CORSO MOC10748: Planning and Deploying System Center 2012 Configuration Manager

CEGEKA Education
corsi di formazione professionale
Planning and Deploying System Center 2012 Configuration Manager

Get detailed instruction and hands-on practice planning and deploying Microsoft System Center 2012 R2 Configuration Manager and its associated site systems. This three-day Microsoft Official course is designed for IT Professionals who are responsible for designing and deploying one or more System Center 2012 R2 Configuration Manager sites and all supporting systems, as well as configuring and managing endpoints in those systems. You will learn how to plan for the deployment of the central administration site, one or more primary sites and secondary sites, and all associated site systems. You will also learn how to migrate from System Center 2012 Configuration Manager to System Center 2012 R2 Configuration Manager.

This course also helps candidates prepare for Exam 70-243, MCTS: Administering and Deploying System Center 2012 Configuration Manager. Both Configuration Manager courses, 10747D and 10748C, or the equivalent knowledge and skills will be necessary to prepare for the exam.

NOTE: Windows Intune is used as part of the lab for this course, which may not be available in all countries. Please confirm with your Microsoft training provider that this cloud service is available in your area. Training Providers: please reference the course setup guide for more details.

Durata del corso 3 giorni

Destinatari / Audience

This course is intended for Information Technology (IT) professionals who are responsible for designing and deploying one or more System Center 2012 R2 Configuration Manager sites and all supporting systems. They should have three to five years of experience in medium to large enterprise organizations, in a role in which they are supporting multiple desktop and server computers that run Windows®-based operating systems.

This course is also for individuals who are interested in taking exam 70-243 TS: Administering and Deploying System Center 2012 Configuration Manager. Both 10747D: Administering System Center 2012 Configuration Manager and 10748C: Planning and Deploying System Center 2012 Configuration Manager are necessary to prepare for this exam.

Obiettivi / Goals

- Describe the System Center 2012 R2 Configuration Manager infrastructure.
- Plan and deploy a stand-alone primary site.
- Plan and configure role-based administration.
- Plan and deploy a multiple site hierarchy. Replicate data and manage content in Configuration Manager. Plan resource discovery and client deployment.
- Configure Internet and cloud-based client management.
- Maintain and monitor System Center 2012 R2 Configuration Manager.
- Migrate to System Center 2012 R2 Configuration Manager.
Requisiti / Requirements

- Networking fundamentals, including TCP/IP and Domain Name System (DNS)
- Active Directory® Domain Services (AD DS) principles and management
- Windows Server management including managing Windows Server 2008 R2 and Windows Server 2012
- Windows Client fundamentals
- Deployment, configuration, and troubleshooting for Windows-based personal computers
- Basic public key infrastructure (PKI) concepts
- Configuration Manager features and administrative tasks including:
  - Working with the System Center 2012 Configuration Manager or newer administrator console
  - Installing clients
  - Maintaining hardware and software inventory
  - Working with collections
  - Reporting
  - Deploying applications
  - Managing software updates
  - Deploying operating systems
  - Settings management

Moduli / Modules

Module 1: Overview of System Center 2012 R2 Configuration

- Introduction to System Center 2012 R2 Configuration Manager
- Overview of the Configuration Manager Site System Roles
- Overview of the Configuration Manager Optional Site System Roles
- Overview of Configuration Manager Deployment Scenarios
- Overview of the Configuration Manager Client

Module 2: Planning and Deploying a Stand-Alone Primary Site

- Planning a Configuration Manager Stand-Alone Primary Site Deployment
- Preparing to Deploy a Configuration Manager Primary Site
- Installing a Configuration Manager Site Server
- Performing Post-Setup Configuration Tasks
- Tools for Monitoring and Troubleshooting a Configuration Manager Site

Module 3: Planning and Configuring Role-Based Administration

- Overview of Role-Based Administration
- Identifying IT Roles in Your Organization
- Configuring Role-Based Administration

Module 4: Planning and Deploying a Multiple-Site Hierarchy

- Planning a Configuration Manager 2012 Multiple-Site Hierarchy
- Deploying a Configuration Manager 2012 Site
- Deploying the Central Administration Site
- Deploying Primary Sites in a Hierarchy
- Deploying Secondary Sites

Module 5: Replicating Data and Managing Content in Configuration Manager 2012
• Introduction to Data Types and Replication
• Managing Data Replication
• Planning Content Management

Module 6: Planning Resource Discovery and Client Deployment

• Identifying Resources by Using Configuration Manager Discovery Methods
• Client Deployment in Configuration Manager
• Deploying Windows-Based Configuration Manager Clients
• Managing Configuration Manager Clients
• Monitoring Client Status in Configuration Manager

Module 7: Configuring Internet and Cloud-Based Client Management

• Managing Remote Clients by Using System Center 2012 R2 Configuration Manager
• Managing Internet-Based Configuration Manager Clients
• Configuring Cloud Services in System Center 2012 R2 Configuration Manager

Module 8: Maintaining and Monitoring System Center 2012 Configuration Manager

• Overview of Configuration Manager 2012 Site Maintenance
• Performing Backup and Recovery of a Configuration Manager Site
• Monitoring Configuration Manager 2012 Site Systems

Module 9: Migrating to System Center 2012 R2 Configuration Manager

• Overview of the Migration Process
• Preparing Configuration Manager 2007 Sites for Migration
• Configuring Migration Settings
• Migrating Objects
• Upgrading Configuration Manager 2012 to Configuration Manager 2012 with SP1 and then to System Center 2012 R2 Configuration Manager
CEGEKA Education
corsi di formazione professionale

La formazione di qualità, su misura per te

☑️ Flessibile
I corsi possono essere organizzati negli orari e nelle modalità più adatte alle tue esigenze, in modo che abbiano il minor impatto possibile sulle tue attività quotidiane.

👩‍🏫 Sharing Course
Corsi in aula di gruppo, con teoria e laboratori, quest’ultiimi proposti da ogni singolo partecipante su aspetti reali tratti dalla pratica quotidiana.

👨‍🏫 Training on the job
Docenti altamente qualificati ti affiancheranno durante una giornata di lavoro e ti aiuteranno ad utilizzare le tecnologie per risolvere problemi reali.

☑️ Two-steps
Teoria e pratica vanno a braccetto. Il nostro percorso formativo, suddiviso in due fasi, ti permette di acquisire la conoscenza e di testarne subito l’efficacia.

🏠 On-Site
I corsi possono svolgersi presso una delle sedi CEGEKA o presso la vostra sede sia sul territorio nazionale che internazionale.

👨‍🏫 One-to-One
Corsi progettati e realizzati su misura, sia di gruppo che individuali con docente interamente dedicato.
